About the Statewide Applicant Fingerprint Identification Services (SAFIS) Program

Massachusetts law now requires fingerprint-based criminal history record checks for most individuals involved with Department of Early Education and Care (EEC) licensed, approved, or funded programs. EEC, the Massachusetts Department of Elementary and Secondary Education (ESE) and the Executive Office of Public Safety and Security (EOPSS) have partnered with MorphoTrust USA to implement the Statewide Applicant Fingerprint Identification Services (SAFIS) Program and are working to provide convenient applicant fingerprinting enrollment centers throughout the Commonwealth of Massachusetts. **NOTE:** This Registration Guide is intended to provide guidance to individuals who are licensed or employed by EEC, or seek licensing or employment with an EEC-licensed family, small or large group/school-age child care provider, residential care program or adoption/foster care placement agency, as well as in-home non-relative caregivers, adoptive or foster parents and their household members, and individuals who provide transportation services on behalf of any EEC-licensed or funded program. If you work for a Pre-K program run by a public or private K-12 school, please consult the ESE registration instructions for Pre-K-12th Grade Education entities.

Overview of the Fingerprinting Process

The following is an overview of the SAFIS fingerprinting process:

- An applicant/employee registers for a fingerprinting appointment via either the MorphoTrust USA IdentoGo™ registration website or the MorphoTrust Massachusetts Customer Service (telephone) Center;
- An applicant/employee goes to a MorphoTrust USA IdentoGo™ enrollment center on the date and time selected by him/her and has his/her fingerprints taken;
- The applicant's/employee's fingerprints are sent electronically to the Massachusetts State Police (MSP) for a statewide criminal history record check and to the Federal Bureau of Investigation (FBI) for a nationwide criminal record check;
- The results of both the State and National fingerprint-based criminal history record checks are returned to the MSP; and
- The State and National fingerprint-based criminal history record check results are returned to EEC for review. EEC will then determine if the applicant/employee is suitable or not suitable for the position sought.

Department of Early Education and Care (EEC) Applicant Types

The following sub-sections provide additional information concerning the various EEC applicant types.

Family Child Care

An applicant for a Family Child Care License, all household members, and persons regularly on the premises (including family child care assistants) of the family child care home, ages 15 and above, must be fingerprinted and approved by EEC. Family Child Care Licensee applicants, their household members, and persons regularly on the premises of the family child care home will be notified by EEC that they have passed the preliminary background checks and are eligible to be fingerprinted.

Group, Center-Based, Residential and Placement Care

Employees, volunteers, and interns in group, center-based, residential and placement care may, at the discretion of their employer, work conditionally and have unsupervised contact with children upon completion of the preliminary background checks and prior to receiving a suitability determination by EEC based on fingerprints. Employees, volunteers, interns, and transportation providers must register for fingerprinting as soon as possible after receiving notification from EEC that they are eligible for fingerprinting. If EEC determines that an employee, volunteer, intern, or transportation provider is not suitable, EEC will notify the program, who will then be required to terminate the employee, volunteer, intern, or transportation provider.

In-Home Non-Relative Caregivers

Applicants for In-Home Non-Relative Caregiver funding will be required to undergo fingerprinting before receiving EEC funding. Applicants will be notified by EEC if they have passed the preliminary background checks and are eligible for fingerprinting.

Adoptive and Foster Care

Applicants to be an adoptive or foster parent, and their household members over the age of fifteen (15), must be fingerprinted.

Applicants for licensure or employment of an adoption or foster care placement agency must choose the **Family Child Care/Group, Center-based or Residential and Placement Care/Non-Relative Caregiver** option when registering.

Multiple Provider IDs

There may be instances in which an EEC applicant is seeking employment at multiple EEC organizations and has been instructed to undergo a fingerprint-based criminal background check conducted for each employer. Furthermore, there may be instances where an EEC applicant is currently employed at more than one EEC organization. As part of the fingerprint registration process, up to ten (10) Provider IDs may be submitted. An EEC suitability determination (based on the fingerprint-based check) may be relied upon for three years from the date of fingerprinting. An applicant deemed suitable by EEC, who seeks employment at multiple EEC organizations or to change employment from one EEC licensed, approved and/or funded program to another, within that three year timeframe, may instruct a prospective employer to obtain the suitability determination directly from EEC without having to undergo another fingerprint-based check, provided that the initial suitability determination is still valid.

Applicants who have resided outside of Massachusetts; applicants who have disclosed to the hiring authority that new criminal charges have been filed against him/her; and applicants who have a break of one year or more from working in an EEC licensed, approved and/or funded program must be fingerprinted again, regardless of the date of their last fingerprint-based check.

EEC and ESE Employment

There may be instances in which an applicant is either employed or seeking employment with an EEC organization and a Massachusetts Department of Elementary and Secondary Education (ESE) organization. Federal law and regulations prohibit EEC and ESE from sharing/disseminating an individual's criminal history record information (CHRI). In order to be compliant with the new law, an individual who works for both EEC and ESE organizations will have to submit, and pay for, two separate fingerprint-based criminal record checks. If back-to-back appointments are unavailable, please

select an appointment time that is as close to the first appointment as can be obtained. An applicant will be fingerprinted for both submissions at the same time, and will not be made to wait for the later time.

Out of State Applicants

Licensees and Reviewers for large and small group and school age programs, residential programs and placement agencies who do not have unsupervised contact with children, who reside outside of Massachusetts, and who work in a program's corporate or administrative office that is located outside of Massachusetts may use MorphoTrust's Card Scan Processing Program.

This program utilizes advanced scanning technology to convert a traditional fingerprint card (hard card) into an electronic fingerprint record. Converting a "hard card" into an electronic record enables an applicant to have his/her fingerprint record processed as quickly as if he/she had traveled to an electronic fingerprint processing location. The section below details the procedures for submitting fingerprints to the Card Scan Processing Unit.

- Applicants must go online to the MorphoTrust USA IndentGo™ registration website <http://www.identogo.com/FP/Massachusetts.aspx> or call the MorphoTrust Massachusetts Customer Service Center toll free at (866) 349-8130 and complete the registration process.

- If using the online registration process, you must select **"Pay for Ink Card Submission"** on the Appointment Details page. - The Massachusetts Fingerprint Card and the Fingerprint Certification Form, along with Registration ID and payment reference number, must then be sent to the following address (for tracking and security reasons, it is recommended that a shipping service with package tracking capabilities be utilized):
